

4. Were all "I CAN" objectives met? If not, explain.

10. Were the relevant Skill Guides and/or Critical Performance Indicators posted at all stations?

5. Were any shortcomings discovered at the refresher? Missed topics? Shortage of instructors? Equipment failure? Other? If so, what procedures were implemented to fix them?

11. Was there adequate opportunity for every OEC technician to demonstrate hands-on skills according to each of this year's required skill guides? Comments?

6. How would you assess the quality and content of the mini-presentations or stations?

12. How would you assess the quality and availability of equipment and the refresher facility in general?

7. Did each presented involve the entire group in the presentation as opposed to just talking at them? If not, please specify?

13. How would you describe the organization of the refresher? Was it well organized?

8. How was the "You Are the Rescuer" station presented? Was it effective in eliciting vital discussion among the attendees?

14. What recommendations would you make to improve this refresher course?

9. What visual aids were used in the refresher presentations and stations?

15. What improvements could be made in this *OEC Instructor's Guide* to make it more helpful in planning and evaluating refresher courses?

\_\_\_ Material available from the NSP Instructor Resources

\_\_\_ OECzone.com

\_\_\_ Slides/PowerPoint presentations

\_\_\_ Anatomical Charts

\_\_\_ Skeletons

\_\_\_ Other (describe)

Were they effective? Other comments?

16. What improvements could be made in the *Refresher Study Guide* to make it more helpful for the OEC technician to prepare for the annual refresher course?
